MEDIA RELEASE

INTERRUPTION TO GAS SUPPLIES

NT Gas General Manager Wendy Oldham confirmed today that a problem with gas supply to the Weddell Power Station contributed to power outages today.

“We notified Power and Water Corporation that gas supply to the Weddell Power Station would be interrupted to enable our crew to rectify the situation.

“It is unfortunate that there was a disruption to electricity, however, gas supply was quickly restored to the power station.

“We are undertaking a full investigation to determine the cause.”
